

Chairs

A chair is a personal choice. Few things in the workplace evoke a more physical and emotional attachment. It is perhaps the essential component of a healthy working environment. Good ergonomic seating enables concentration and minimizes the distractions that stem from being uncomfortable.

Soji

Thoughtfully designed and informed by ergonomics, Soji is a highly-adjustable task chair that syncs your body and mind the second you sit down – for healthier levels of performance and well-being, no matter where you work.

Designed by Arne Dassen

Fern

The Fern desk chair is easy, natural and unhindered. Inspired by nature, it is in tune with your every move.

Grounded in extensive ergonomic research, Fern's design puts the person at the centre with ergonomic innovations that provide total back support, edgeless comfort, and free movement.

The result is a next-generation sitting experience that is distinctively responsive to each person. The chair works with you, not against you so you can sit better, work better, and feel better in today's changing workplace.

Designed by Haworth Design Studio & ITO Design

Fern provides a comfortable, engaging sitting experience that creates good feelings, keeping you balanced and centred in your chair. Its approachable design is less machine and more human, with mechanics discreetly integrated into a warm, residential design.

Lotus

The iconic Lotus line includes a low back side chair, mid back conference chair, and high back executive chair.

Nia

Traditional task chairs contrast the increasingly residential-themed workplace aesthetic.

Nia with it's slim upholstered profile and concealed mechanisms finally creates a chair that compliments this aesthetic without compromising performance.

The ideal work environment for today's knowledge worker provides support where it's needed and freedom where it's wanted. Designed to support activity during the workday, Nia offers the rich comfort of a lounge chair with the precise engineering of a performance task chair – it combines comfort, performance and aesthetics in one product. Its slim design hides a smart mechanism that, extensive testing has shown, provides remarkable comfort however you sit in it.

Design by Haworth Design Studio & brodbeck design

Nia, the First Active Seating Chair is designed to blend the style and comfort of lounge chair with the performance of a task chair, creating a solution for many different work settings, from meeting / conference rooms, focus work areas and collaboration.

Nia gives workers the seating posture that best suits them but ensures that they will be supported and experience maximum comfort during their work.

Intermezzo by Haworth

True to her philosophy of sustainable materials and aesthetics, Patricia Urquiola designed the Maari seating family with few, durable and high-quality materials. In 2021, she challenged the Haworth International team to produce a 100 % recycled and recyclable version of the Maari iconic plastic shell. The result is the black shell is made from “zero waste production”.

Maari

Maari lets you furnish many spaces with a family of seating – one of the largest in the market.

Designed by Patricia Urquiola, Maari is based on a one-piece, delicately textured, moulded shell that’s the same for all chairs. Choose any base with the same shell for a breadth of applications.

The Maari family of seating brings interiors to life through simple specification for a range of applications. Maari is everywhere – its gentle and inviting design offers simplicity and warmth in an aesthetic that provides balance within a space. Maari wood base chair offers timeless classic seating to complement almost any interior – from traditional to contemporary.
